

ALIPLAST SP. Z O.O.

Aliplast is one of the European market leaders in the development, marketing and distribution of high quality aluminium systems for windows, doors, sliding elements, curtain walls, winter gardens and roof systems. Aliplast is an aluminium systems company significantly investing in firms located in France, China, Egypt and in the United Kingdom. Aliplast strives to achieve an increase in comfort and architectural value of a building by providing high-quality aluminium systems. This involves the cooperation of our research & development, marketing and distribution departments. We offer effective tailor-made solutions to create positive relationship with our customers and partners during the construction process.
