

POL-SKONE SP. Z O.O.

POL-SKONE has got three modern and fully computerized production plants in Lublin, Biłgoraj and Niemce and employs over 900 highly qualified workers. The company's products are made entirely on site from the best-quality wood originating only from the Polish forests. It is the major objective of POL-SKONE to manufacture the highest quality products meeting the expectations of its customers and maintaining the opinion of a reliable partner.

In the year 2000, the company was awarded the Quality Assurance System Certificate compliant with the ISO 9001 standards from the Rheinisch-Westfälischer TÜV e.V. and in the year 2010 the company was awarded a positive opinion after the audit testing its compliance with PN EN ISO 9001:2009 standard.

Produkty i usługi: Interior doors and door leaves (painted, coated, veneered and laminated); technical doors (noise reduction and fire resistant), exterior doors, wooden windows, frames, door and floor architraves and shutters.
